

DF Deutsche Forfait AG starts the new year with a new homepage

- DF website 2021: new - faster - better: www.dfag.de
- DF Group is the foreign trade financier for the Middle East and Eastern Europe
- Welcome page shows the industry focus: Food, Pharmaceuticals, Healthcare, Industry, Energy and Infrastructure

Grünwald, January 20, 2021 - With a revised design and greater user-friendliness, DF Deutsche Forfait AG is now presenting itself from a new angle on the Internet. Visitors can obtain first-class information about the entire product portfolio more quickly and first insights into DF Group's Business Development division. In addition, the website provides better access to DF's experts from Sales, Management and Investor Relations.

As an important communication channel, the website helps to present DF Deutsche Forfait's extensive expertise as a globally active foreign trade financier with a focus on the Middle East and Eastern Europe regions and to clearly communicate current developments.

With the relaunch of the website, Board members Dr. Behrooz Abdolvand and Hans-Joachim von Wartenberg underline the successful realignment of the listed company. The attractive homepage opens the door for visitors to the food, pharmaceuticals, healthcare, industry, energy and infrastructure sectors on which DF Group focuses.

In addition to presenting DF Deutsche Forfait and its team, the clearly structured sections provide an overview of the core business that DF Group offers from its branches in Cologne and Prague. A brand new financial product is factoring, which the Group provides exclusively through its Prague branch.

Target groups of the new website are exporters, importers, industrial companies, banks, financial service providers, investors and shareholders.
